

1           Now, you are asking me to make my intention  
2 clear. It seems to me in order to do that, I would then  
3 have to run through a series of questions with respect  
4 to specific officers and have a true and false test here.

5           I am not sure that I have thought it through  
6 that far.

7           THE CHAIRMAN: Perhaps the record will be  
8 clear: You did not intend to limit it to the top  
9 officer?

10          DELEGATE SICKLES: That is correct.

11          THE CHAIRMAN: My second question would be  
12 as to your intention with respect to the use of the  
13 word "information" as related to your amendment? Would  
14 it embrace, for instance, a request from the governor  
15 to a county executive to advise him as to the reasons why  
16 he made a particular decision or appointment or anything  
17 of that sort?

18          DELEGATE SICKLES: This was not my intention. It  
19 seemed to me it was not to be -- unless that has been a  
20 published document, it would then be a matter of fact; the  
21 document would have outlined the reasons.
